90% of a child brain develops before ages 5

Research suggests that maximum brain development happens between the ages of 0-6 years. So an early start is essential for a child's early development, we at Kidz Gurukul understand this and hence, offer programs like Play Group, Nursery, Jr. Kg., and Sr. kg. At Kidz Gurukul our curriculum & teaching methodology are carefully designed to create stimulating learning experiences that boost neural connections helping children develop higher levels of observation, critical thinking & problem-solving skills. Pre school prepares children for a lifetime of learning. It helps children gain skills that help them learn to read, write, and build math and science skills with holistic brain development to make them ready for school.

• Our Pre-school Programs

focuses on a child's mental, social, emotional, and physical growth. In these preschool programs, the child is an active learner and gains knowledge about the world through experience. Students set the learning pace, and the teacher serves as a guide.

• PlayGroup

2 to 3 years, Discovery and exploration, language development, new-age skills, and shaping scientific mindset.

• Nursery

3 to 4 years, Enhancing interaction, cultivating creativity and improving imagination through art and music.

• Jr. kg.

4 to 5 years, Age-appropriate learning and educational tools suited for individual pace.

• Sr. kg.

5 to 6 years, Developing vocabulary, attention span, reading and writing skills with innovative methods and preparing for primary school.

• Why Us

We believe in the holistic development of a child for a stronger and a bright future. Our school's philosophy is based on the knowledge that young children learn by playing, which reflects their continuous emotional, social, intellectual, and physical growth and development along with academics. We believe that young children are unique, eager to learn, and responsive to love, attention and guidance. Our staff strives to help children form good habits, solve problems, learn to interact with others and develop a good personality.

• Our Curriculum

Holistic development of pre-schoolers, Hands-on learning, Observational learning, play-based learning, Skits, Sports, Dance, Music, Craft and Excursions. Emphasis on Spoken English.

• Staff

Professionally qualified teachers, Counsellors, Special Education and experienced management team.

• Facilities

Smart Classrooms, PLE class, Sand play area, Nutritious Snacks, on call doctor, Library, Day Care.

Many reasons to choose us

1. Activity and project based learning - We have designed most innovative and well planned curriculum for children. Project-based learning is a component of an inquiry-based approach to learning. In this approach, students create knowledge and understanding of learning through activities, intellectual inquiry and a high degree of engagement with meaningful tasks.
2. Reggio Emilia - The Reggio Emilia Approach is an innovative and inspiring approach to early childhood education which values the child as strong, capable, rich with wonder and knowledge and potentially perfect soul.
